HOW TO CLEAR YOUR CACHE/BROWSING HISTORY
In Internet Explorer: Start by clicking on the ‘gear’ icon (or ‘Tools’) and then select ‘Safety’, then ‘Delete Browsing History’...
Make sure that all of the below boxes are unticked, then click on ‘Delete’
You should then get this confirmation message.
For Mozilla Firefox...

How do I clear my history?

1. At the top of the Firefox window, click the Firefox button, go over to the History menu and select Clear Recent History...
When clearing the time range make sure you select ‘Everything’

2. Select how much history you want to clear:
   - Click the drop-down menu next to **Time range to clear** to choose how much of your history Firefox will clear.
Follow the below instructions, and make sure the below boxes are ticked, then click ‘Clear Now’.

Next, click the arrow next to Details to select exactly what information will get cleared. Your choices are described in the What things are included in my history? section above.

3. Finally, click the Clear Now button and the window will close and the items you’ve selected will be cleared.
For Google Chrome do the following:

1. Click on the Chrome menu button on the browser toolbar.

2. Select **More Tools**.

3. Select **Clear browsing data**.

4. A dialogue window will appear, providing you with a list of checkboxes for the types of information that you wish to have removed. Select the checkboxes for the types of information that you want to remove.

5. Use the menu at the top to select the amount of data you want to delete. Select **Beginning of time** to delete everything.

6. Click **Clear browsing data**.
Make sure you select **Beginning of time** to delete everything, and that the below boxes are ticked – then select **Clear Browsing Data**
