# Teaching Period 1, 2014

## How to use Wiki’s

### Wiki overview

Wiki’s can be located by clicking the Learning Groups tab in the left hand navigation area.

Click Wiki in the group tools section.

Choose to either Edit the Wiki content or add a Comment.

By choosing Edit Content you are able to add text to the Wiki. Be sure to check your content for grammar before Submitting and be aware that others in your group may add to your Wiki thread, so it’s important that your communication is legible. Remember to submit your edits.

By choosing to Comment, you are able to leave a comment relating to the Wiki topic and threads. Be sure to click add once you have composed your comment.
You can also Add a new Wiki page which creates a new page.

Once you created your new page, you can then add a title for your thread and add content. Always remember to submit your changes.
